Dear Peggy, 4/7/93

I wrote you in haste so the student who helps me from time to time, a fine young woman, could mail it when she returned to college. I wanted you to have Richard's boasting of all Harry's spies. I think if you have not mailed it without you'll have what I wrote him, it might help for Mary to have my letter if you think ~~not~~ his.

When you speak to her, please with no suggestion of any pressure, make it clear that it would have been of some significance when I see the assistant states attorney on Friday to show that Harry has me now caste as the chief conspirator against him. As I told you, I wanted to await a good introduction. I got it, so to speak, for passover. And I was given the first open apppintment. On every busy day for me. I walk, have p.t. and blood tests in the morning and will be making a broadcast at 5:30 a.m. first. That cuts doen on my walking. Then to the states attorney's office, then to learn if the doctor can be located whether Hopkins recommends surgery or regards not cutting me the safer ccourse. Then I've forgotten but some is to be here that afternoon.

The ASK on the copy of the City Paper tells me where mine is misfiled! Thanks. But then I had no inkling Harry was going to declare war on us all.

My Livingstone file, all of it, is now in chron order. I think as I said you should be thinking of an article that grows into a book. What fun it would be to spoof! and what a self-created target.

You are, of course, welome to all I have.

If you did not read Richard's handwritten letter with care I suggest that you do. I think that in with his childish lies is some interesting truth.

I'm sorry I do not have Harry's use of the police letterhead to give to the states attorney Friday. But if I can get it later I can provide it and I'd like to be able to give it to ~~Saulsbe~~ Saulsbury when he and his family are here a week from Saturday. I know he would like very much to be able to do something to stop Harry and he thinks that can do it. From the way Adams has been speaking lately he is not the best way or even the right way. David told me he has not even questioned Rick yet. And there may be some advantage in the higherup getting it other than from those who are supposed to investigate and in all this time have done very little and to no end yet visible. Ditto if the states attorney has that and the letters saying he is with the police. They are so well known it got back to David.

If you know anyone who has access to a news story retrieval system, why not see if you can get what there is on Harry? Maybe some spoofs at the time of the JAMA preds conference and maybe more of his vacuuous boasting of his great accomplishments. I've asked a friend who had the Zapruder film on a VCR cassette is he can make a print from it of the back of the head. I think you'll be able to use that and High Trash 2, which is based on that lie. He never bothered to chekk it. Now he claims the film was toyed with because what he imagines is real, not what is real. If Harry went to Chicago and you get any accounts I hope you'll share them...We'll see how Richard reacts to some tough letters. Best, Harold

4/8 When Crouch phoned me before you he told me that Harry wanted him to ask a DuPont friend of his to have a DuPont investigation of what Harry imagined my DuPont employment had been. I was never employed by the DuPont Company and never said I had been. I had been employed by one DuPont who owned the morning paper when I worked for it. Harry's reason for wanting me investigated? I had somehow been trained in "psyops" and I ~~has~~ am the chief "psyops" operator against him!
