4/27/93

Dear Mary,

Preparatory to phoning the state's attorney's assistant to see if she were free, as she wasn't, I put the selection of Harry stuff in chronological order. That is the selection I intend to offer, not by any means all.

When I came to this letter of 11/19/92 I wondered if I had sent you and Peggy copies? I replied at some length over a period of days and he did not like what I said.

Prior to writing me this letter he phoned me. That phone call was my first knowledge that he had us both in two conspiracies and it was my first knowledge of his adopting the Farewell America fabrication.

I can't make sense out of his quoting of me. Perhaps he added several that were unrelated together. I never believed the film was doctored or altered, autopsy film.

It is surprizing that he can have spent so much time on the subject and learned so little and makes so much up. Like Dick Sprague leaking the Zapruder film when we all know the Garrison leaked the doctored copy LIFE let him have.

You may know otherwise but my first knowledge of him having that big SuperTexas conspiracy in mind was about the time of last year's ASK. He questioned Hal Verb about it there. So, I am wondering who fed that and the Hunt crap to him and when. Who more likely than those the Hunts fired as thieves? He told me you'd inherited a vast fortune!

How come nobody ever let you know that you are "one of the richest women in the U.S. Not just moderately wealthy by dint of savings."? Somebody really convinced him because he argued this strongly to me by phone.

So now you know when you decide to sell the Brooklyn Bridge where you can find a buyer.

In trying to reason with him, in addition to making some forthright statements about common sense, I told him that your working for the law firm meant no more than my working for publications owned by Pierre DuPont and Walter Annenberg. This led him to asking others about "Pierre and Anenberg (sic)" and to his asking Crouch to ask his friend Lewis DuPont Smith to have the DuPont records investigated over my employment by the compnay for which I never worked. He can't keep even simple things straight.

Anyway, if I did not send it, copies to you and Peggy.

Hope all is going as well as it can you you,

Harold
