Dear Gary,

In the last batch, 301:256 deals incompletely with a Nazi-type, Joachim Audolph Roehricht. it is improbable that the saries of reports ended on this tage. Did you find the following pages irrelevant, worthless, or is this an oversight?

He worked for Knott's Berry Ferm.

If there are additional pages, when you send me a copy would you also send one to Mr. Jason Cilverman, 1640 Bhode Island Ave., nw, Washington, D.C., please:

Than's,

FIN

Dear Jay,

Weep the enclosed, stisched Thermofexes if you'd like. As you can see, I'm following this through the friend who got the initial reports. Of course, we can go back to thet rchives directly. I'm doing it this way because of time.
