8/24/70

Howard (Dick, Gary),

Finally got front-shirt blowup this p.m. In it the button is 1¼". It will take quite a bit more enlarging, very much, if you want to do that or have smaller pieces blown up.

There really is no loss in detail, no fuzziness.

For my purposes, this is ample. I merely report this in case you have need for finer detail. You have the negative.

Sincerely,

Harold Weisberg
