Dear F arris,

In addition to copies of the records you asked for I enclose several others that at some point may be of use or interest to your office.

You may have seen HR 62-109060, 9/13(?)/66, Jones to Wick, in Athan Theoharis' book. I gave it to him. I've not seen his book. The attached page is from Whitewash.

You referred to additional FOIA processing. It is for this reason that I enclose copies of lists of Dallas SAs that I used in a lawsuit.

All these names are disclosed officially and now cannot be withheld now properly, as became the practise about half-way through my CA 78-0322. (Later combined with 0400.)

There can hardly be an honest privacy claim with even the addresses and home phones disclosed, although that claim was made in the last half of that litigation.

There is a changed environment now, I think.

Moreover, when some at FBIHQ wanted to withhold from what the Commission would publish and make accessible at the Archives, Hoover was firmly opposed to it and prohibited it.

There is a name I forgot to give Detective Adams when he phoned me. If the FBI develops any interest it might be useful to speak to Gus Russo, who lives in Baltimore. I met him through Livingstone and Waybright. I've heard from him that he is working on a documentary and ~~for~~ from someone else that it is or is also a book with a co-author.

The documentary is supposed to be for WGBH/PBS.

His address is 27 N. Symington Ave, 21228.

The initials on the DJ file copy of the Katzenbach 11/25/63 memo to Moyers are of Howard P. Willens, a DJ lawyer loaned to the Commission, where he was third on the staff. It was not filed until May 21, 1965.

I am aware of what Buck Revill told Mike Snyder about a new look, more or less. I do not think that will happen. But if it does come to pass I think I may have done much if not most of its work for it. And it would be available.

I'm glad you phoned and we had a chance to talk even if that call, one by Crouch, another one I suggested to Adams that he speak to, and one from Mary's friend, one after the other, kept me from a single word or picture on Joe Gibbs' resignation. But if you call again, please try to remember that with sleep apnea, uncorrectable with me, I have to retire early and aim for 7 p.m.

Suncerely,

Harold
