Mr. Farris Rookstool III
1801 N. Lamar St. #300
Dallas, TX 75202 PERSONAL

3/1/93

Dear Mr. Rookstool,

I've marked this personal because I do not want to cause you any possible embarrassment. Witness my doing nothing about your giving me proof that the Dallas and Los Angeles offices did not comply with my FOIPA requests of them and I did nothing about that proving that the Dallas and Headquarters responses in my CA 78-0322 were false and were sworn to.

However, I think that the matter about which I write has reached the point where I should inform you. I will await receipt of a letter that was read to me and I'll then copy and enclose it and one that was sent to me at about that time.

Toward the end of last year Harry Livingstone told me that you are helping him in what he is up to. You and members of the Dallas police force and some in Baltimore, one of whom is known to me to be a policeman.

I do not know whether he has made this boast to others but there is absolutely no doubt that he made it repeatedly and threateningly to me. This is to say that with or without cause he has involved you and the FBI in what I regard and described to him as utter irrationality.

What prompts me to write you now is the letter he wrote Mary Ferrell about the time he last wrote me. That is the letter I await and will enclose.

I understand that you know Mary. If so you know the extraordinary burdens she has borne in recent years from her own accidents and illnesses and Buck's terminal illness.

Since receiving this menacing letter from Livingstone, who represents you as his associate, she has been under a doctor's care for panic attacks.

Aside from this atrocious abuse of Mary I'll be 80 in 39 days, I've survived more than one ordinarily can expect to, and I've developed new medical problems. So, I have neither the interest nor the intent of complicating my own life with doing anything public about this monstrous and menacing bad behavior. But the time may come when this man who has no contact with reality and is fiercely determined may permit no alternative.

Because with or without justification he has repeatedly involved you and the FBI this is to give you some indication of what he has involved you in.

Sincerely,

Harold Weisberg
