Post 8/14/67 Doctor Says Ruby Planned Suicide

DALLAS, Aug. 13 (UPI)
The doctor who treated
the late Jack Ruby in jail
said today it wasn't really
Lee Harvey Oswald that
Ruby meant to kill—it was
Ruby himself.

Dr. John W. Callahan, who was a parttime jail doctor when Ruby was in jail in Dallas awaiting a second trial, said Ruby had strong suicide tenden-

"He was rather reluctant to accept this. He was secretive and was hiding his true feelings," Callahan said. "He seemed to be a very neurotic and nervous person. He was suicidal. He was depressed and had quite a time of being very glum and blue."
