Ryder Club guest book

Barbara Reid kept after Jack Frazier until he located the guest book of the Ryder Club, which he formerly operated. Here it is. He wants it back. May I also suggest that Barbara should have a xeroxed copy to work with?

I also believe that several names may be disguised in this book, for example, Thornley's in the "Discordian" language on the ninth page. You have the Discordian files that I obtained on a previous trip. These will reflect which Omar Khyam is who.

Will Brady was there (page 8), as were a number of other people who have been of interest to you and who have come up in my earlier investigations (for example, Lane Caplinger (page 4) and Helen Gladstone (page 8), who seems to have accompanied Brady .

Five pictures also are attached, including one of Howie Cohen.

If it is not too much trouble, I'd like a copy for reference .

*Not there is no "Oswald". Some of the writing may, however, be similar to his*
