Dear Hal:

Hello. I have your brief letter of 9/29/75. Hope all is well with you. I have some news which you may or may not know about but it could be important. Next week (4th, 5th, & 6th of DEC.) there will be the "NATIONAL TAX STRIKE" Conference here at the Regency. It will be covered by NBC, at least three local TV stations, The Denver Post, and other media sources. I will be there with several VIP friends and I had a two hour interview with John Grandbouche, the organizer the other nite (with one or two more coming in few days). He is extremely intelligent, informed, straight, gutsy, and, I believe-legit. I am enclosing some data on the conference and have also sent same to Harv/SF.

Have access to photo of Bryant (Oswald double) but am advized I shoudl get a request in writing before obtaining and releasing same for my own protection. I also have a file on him plus access to several relatives and others known. I believe some really heavy things are about to pop on the whole assassination issue anyway-superbig. Even most of the psychics are predicting it soon.

Have you still get the tapes we made on my return from New Orleans in 1968? I have made quite a few more connections re me & Hagen et al since then. It is really sticky, to say the least. I am convinced now they were going to use me in a way simular to how they used Oswald-but "fate" intervened and blew it.

I MAY "detonate" my tax plus WSP et al story at the conference. I am making backup and cover arrangements and have a statement ready now to submit for approval. I also have a place ready for my wife and son, if need be. I am well aware of what could happen to me and mine if I pull the plug but I may risk it anyway. And hope my "Guardian Angel" isn't on vacation....

May call you and would sure like to get your input on this but (1) I know you won't have time to write me in time and(2) I am sure your phone is tapped and I know mine is so I couldn't say too much that way. I also allow that your mail is probably intercepted - at least some of it. I don't know.. But, I have some top level new inputs and have reason to believe that the "smart" bastards have blown it and won't be able to keep the lids on much longer.

And, if anything happens to me, I have it arranged that many will know about it and raise big questions in high places which will demand/command answers. So if they want to "get it on", I say - "lets go-NOW" and get it done. Soon, we will lose our remaining freedoms (or, the illusion of same) if we don't act while it is yet possible. You survived and so did Harve & some others. But of course, you are also well known and thats the clincher I believe.

Take care.

Very sincerely,

Dick Rye

P.S. "They" "got" to my heavy Washington contact. So the trip there is now delayed until at least early January altho possible Dec. No I don't know about "Security Assoc's. Int'l. but I probably should. Interesting.

Hal: Just found this letter with others in file after moving. Talk about being disorganized. Some of it is still relevant however so I am sending it with this very brief but important update. I worked as an "Intelligence Coordinator" for the National Tax Strike Committee and and National Sheriff's Posse Commatatus plus with the regional General and Zone Commander (8) of the Mountain States Division of the counter revolutionary forces, an international and national organization with no name. It includes some high ranking Generals and Congressmen and others and is very powerful and well organized here. Just moved to Colo. Springs. Have large old house near mountains. It is nice. Arkansas and farm/food operation coming up in 3 months. Pos. trips to Washington & S.F.

Dick
