

NEW ADDRESS: Rt. 7, Frederick, Md. 21701

2/21/68

Dear Mr. Streit,

Your letter of 2/4 has been forwarded by Dell. I thank you for the kind things you say. These, to date, are our only reward.

May I suggest that what you say reflects an attitude as important to the genuine defense of our country as anything you may do in the armed forces? It is comforting to know that men with immediate and serious problems are deeply concerned about this issue and want to know what to do.

I wish I could give you a better answer to that question. The essential thing for concerned citizens in a society such as ours is to inform yourselves, and in the way you are, by examining all sides. Next, I believe it is important to make your voices heard as best you can, in letters to your legislators and the White House. One man is a very small percentage of 200,000,000, but if enough individuals express themselves, the total will be noted and perhaps heeded. Whether or not it is heeded, it is the responsibility of all of us.

I have published two more books since WHITEWASH II (just enclosed). If OSWALD IN NEW ORLEANS is available to you through normal channels, it is but 95 cents. We have to add a handling and postage charge. There is no other version of the third book, which is perhaps the most shocking and is the most suppressed. It is available almost nowhere.

You might want to read the Playboy Garrison interview.

Again, thanks for taking the time to write.

Sincerely,

Harold Weisberg

February 4, 1967

Dear Mr. Weisberg,

I have developed a tremendous interest in the facts surrounding the Kennedy Assassination, the Warren Investigation, and Mr Garrison's investigation in New Orleans. I was first shocked out of agreeing completely with the Warren Report by the interview in Playboy with Mark Lane. (Feb 67)

Since that time I've read Mr Lane's Rush to Judgment, Epstein's Inquest, Sylvan Fox's The Unanswered Questions About President Kennedy's Assassination, various newspaper and magazine articles, and your Whitewash and Whitewash II. I found your books to be most interesting, highly informative, thought provoking, and very unnewing, as well as the most accurate when I compared and checked back with my

paperback edition of the report.

Presently I am serving aboard a fleet tug in the U.S. Navy. Two copies of Whitewash and my copy of Whitewash II are circulating around the ship. We also have some related books, both pro and con, being passed around, too. These have led to some very interesting discussions, to say the least. All of which brings me to the real purpose of this letter. ~~#~~

We would like to know how to express our dissatisfaction with the Warren Report. To our way of thinking this is too important of a subject to be left as is, and we would like to make our feelings know. But to who? We would appreciate your help in this.

Your books are well read and talked about aboard ship. We offer our "Well Done" to the ~~ready~~ result of what must have been a huge time consuming task. Thank You.

Respectfully Yours
