Dear Mr. Beebeey:

Enclosed find cost of two copies  
of your book - "Whitewash". I am  
glad that somebody had the courage  
to do some investigating on this case -  
the more one reads about Kennedy's  
assassination - the more confused and  
skeptical one becomes concerning the  
findings of the Warren report. I don't  
suppose we will ever really know  
the absolute truth about the tragedy.

I also read the article in the  
Greater Philadelphia magazine - August  
1966 (over

The Warren Commission, the Truth, and  
Arles Specter - (he served as a juror  
member of the Commission) from  
what I heard of your book - this  
article was based on a great deal  
of details as outlined in your own  
publication.

Thanks for immediate delivery  
Very truly yours,  
E. Peter Giverman

P.S. Is it possible to forward one of the  
books to my daughter - (her husband and  
she read The Warren Report)
