Dear Karen,

Your job news is great! Congratulations! There is always the chance that it can lead to something better, too. Meanwhile, it seems to be the job that will give you good training for law school when you can get there.

I'm very happy to have the tape of Lane's appearance with Morrow on KDKA. I'll explain why briefly. From this you will also know that I'd appreciate any scrap on this kind of thing by any of them.

All present indications are that the committee is starting off with total irresponsibility and having obtained its life through only irresponsibility. This presents a number of serious problems.

While I do not know what I can do, I do know that I must make an effort. To this end most of all I need to know. Lane is notorious for his thievery, his lies and his actual ignorance of fact. The most basic fact. He is working with a Hollywood producer and a whole crew of zanies and ripoff artists, incompetents. Their initial operation was to involve the Black Caucus by stealing my work and Les Payne's, then palmed off by Lane in an article as his and NBC, by broadcast, as its. NBC actually told the Congress that the work was its original work and then broadcast this. I heard that.

While the stealing of my work and Les' is a problem, it is not now the most important one. That is to make an effort with the members of this committee who are not nuts to keep it going straight and to get it off this kind of craziness.

That will not be easy. I'll have to collect much evidence.

If there is anyone you know you can get to help with providing this information from other than your immediate area I'd appreciate it. Meanwhile, many thanks for your foresightedness. Our best to you all,

Dear Harold,

The enclosed tape is of an interview with Robert Morrow & Mark Lane. KDKA had them on to discuss today's announcement that the JFIR & King assassinations would in all probability be reopened. I thought you might be interested in it, at least for the purpose of preserving it.

Good news! I finally got a job. It's only temporary, but it may lead to a permanent position. I started today in the litigation resources section of Westinghouse's law dept. Westinghouse is involved in a breach of contract suit & my job is to review & index documents. The job is only scheduled to run until January, but at least I've got my foot in the door.

I've been meaning to call to let you know that my weekends are free, so if there's anything I can help you with, let me know.
Hi to Lil.

Best,
Karen
