

2/6/75

Dear Karen,

Time presses so response must be brief.

Come whenever you want. I may have to be away a short while about the middle of April. As of now nothing scheduled.

When you do you can go through that separate file drawer and get out that 'onkin analysis. I haven't time now to make a copy and in two months 3M hasn't been able to deliver a new supply of paper for the copying machine. Remember, I have no help. I'm behind in the filing and I'm the entire shipping dept of the publishing operation. I have not found time to do any writing since September, no matter how little I sleep. I'll show you how to use the machine and you can then use it. It is simple but takes about a minute a page.

If you use Joe Goulden's book, I'd appreciate it if you would be alert to his possible sources. Some could have been Morse, but I'm a bit curious about the possibility that with its change of VN policy CIA didn't feed him.

Ray: decision due this month, with about three day's notice by judge to accomodate big-city papers. We won on discovery before Supreme Court. It turned down State's petition certiorari. Means four would not vote for it. Very good.

If you could get that large crew to watch the papers on the misguided publicity of the moment centered around exaggerated interpretation of Kapruder film and hokum about Hunt and Fiorini in Dealey Plaza, I'd appreciate copies. Wire services carry what the papers I see do not. Counterproductive operation into which Dick Gregory has been conned. The photographer is a friend who knows nothing of the fact but is a whiz at optics. I'm his son's godfather. The spooks can take this terrible stuff to Capitol Hill as proof they are blamed for everything behinning with the original sin. It serves their interest only, but a calm and reasoned explanation of what is without question in the film would have done much good.

Best,

1/30/75

Dear Harold,

You're really too much! I don't know of many people who would open their homes to two people they have never met and know very little about. I appreciate your kindness more than I can say. As I said in my last letter, we have no definite plans yet because I've got a lot of work to do and my friend is teaching this term and also won't be able to get away for awhile. However, when we do make more definite plans, I'll let you know far enough in advance of our arrival so that you'll have time to escape before we get there!

I would indeed be interested in your analysis of the Tonkin Gulf. If you could send me a copy it would be a big help because I need as many sources as I can find.

What's the latest news on the Ray case? I haven't heard anything about it for over a month, so any new development you can tell me, no matter how small, will be greatly welcomed. I have all my relatives and friends, including one friend who is at school in Harrisburg, checking every paper and magazine they get, but no one has come up with anything for a month, and my curiosity is killing me.

Thanks again and take care.

Karen
