

Dear Karen,

3/28/75

No problem of "putting up" with you both. You may have to unstack a winter's accumulation before you can make the bed, though. I've been too busy to be neat, my wife has been working two days each day during tax season, our only regular income, so the spare room is a mess.

As of now I know of no conflict. At some unset date I'm to be in Los Angeles on a Monday and a Tuesday to tape some TV shows. There also is some kind of symposium at New York University to which I'm told I've accepted an invitation. (It is all news to me!) I hear but do not know it is toward the end of April. If it comes toward the end of your planned stay, perhaps you'd like to go? It is, as I understand without any first-hand knowledge, sponsored by the NYU law school and is on assassinations.

I will not be going unless my expenses are paid, so if you want to go I could pay for the gas and toll charges.

Think it over. If you'd like to go and if it coincides, give me time to try to find someone's girl friend who can give you a crash pad.

I'm pleased that no matter how elliptically you indicate misgivings about the "sensationalizing" the Gregorian chanters are engaging in. Good perception! It is past the point of counter-productivity.

The film and the one I narrated on Black Journal (Nix-no gore) do have an impact. But the real problem is the total effect on those who do exercise control.

You can hold me to this: the Rockefeller/Belin Commission will get its mileage out of all these deliberate manufactures, which are more than just sensationalizing.

Great that you did so well on your evidence paper!

If I hear of any conflict I'll let you know.

Best,

Dear Harold,

Mary Pat and myself finally got our schedules coordinated enough to give you a definite date for our trip. If you have no other plans and are going to be home - and still think you can put up with both of us - we'll probably arrive sometime in the afternoon on April 22. Both of us have to be back on the 27th - Mary Pat starts summer classes on the 28th and I start work soon after.

Needless to say, I was really disappointed over the outcome of the Ray case. With all the work that you and Jim put into it, it's a damn shame that it turned out the way it did.

Have you seen any of the TV coverage Dick Gregory has been getting lately? No matter how much he's sensationalizing the issue, getting the Zapuder film on national television - even if it was at 1:30 in the morning - is something that was long overdue. Even if I don't agree with the way he's going about it, it seems to at least be a step in the right direction. The interest generated, just here on campus, by one showing of the film, is really amazing. Within a week after Gregory's film was shown by ABC, I received 3 invitations to give a lecture, 2 of them for classes here at Pitt. My Evidence instructor really liked the

paper I did on the Warren Commission. He gave me an "A" and is going to put the paper on reserve for those taking the course next Fall. Your books were a great help in writing the paper.

Well, I have to run to class now. Let me know if it's OK to come down for the 22nd. Take care.

Best,
Karen
