

11/27/93

Mr. Joseph Schneider
2805 N. Headly Rd.,
Bloomington, Indiana 47408

Dear Almost Centenarian,

This past octogenarian responds in haste so he can continue his work while he still can.

Livingstone is carzy. Posner is-like the fox he is. More skink. For now the little I enclose will have to do. And they both stole from me what they did not want me to have instead of making the copies they could and did with other records. They both knew the truth, know about the records, etc. Each wanted his own kind of fame and Posner's had other purposes for which he was well rewarded.

They both knew better.

They also knew those records I used are not forgeries.

Best wishes for many more years,

Harold Winberg

Nov. 23, 1993

My dear Harold Weisberg:

I wrote you some time ago about a tape recording, possibly made by Harry Holmes during the last interrogation session of Lee Oswald. You replied that I may be in error.

The above^{is} way of introduction. I just finished reading Gerald Posner's Case Closed.

In the acknowledgment section he states he was a house guest of yours while collecting materials for Case Closed. He also states he had free access to your files of government documents. He also cites Post Mortem in his bibliography.

Okay! How could he have missed the government documents you display on pages 308-310 in Post Mortem

Case Closed is obviously what you have called Whitewash. He does not deal with the autopsy findings in the Warren Report. He defends the single bullet theory using computers and technology he alleges did not exist in

1964. It was also not available to the
later Congressional inquiry in pursuit of
an answer ^{to} Who Killed Kennedy?

Are the documents you display
forgeries. Are the signatures they bear of Mr.
Berkley fakes.

If not, Gerald Posner is a dishonest
man.

Please indulge an "almost" centurarian
with a reply. I am still wide awake and
around.

Sincerely,
Joseph Schneider
