Dear Cary,

Adding to what I also wrote Taul, Bud agrees with me that what you should have received by now if possibly the most important single thing to date. "e may be thinking as a lawyer. We were too-often interrupted by the needs of his clientelle. Te'll also be with others Thursday and probably will not have much time for further discussion. He'll come up here Saturday, I expect, for what I can only hope will be the final decision on what we'll sue for.

Faul has not yet responded to my question, will be promise to keep this entirely to himself if I send it to him. I have a copy of everything put eside for the moment I get his affirmative enswer. Ontil then I am not even writing him about the contents.

If you have a contrary evaluation or any suggestions, please send them when you have time. s you realize from the follow-up letters, I am not letting it drop there. lso, no further responses.

ith the herox 7000, but can take copies of the add. for about \$4.50 if the original xerox 4'll send is black enough. When 4 have eten that small sum for a number of copies, 1'll make some. This could also provide ameans of getting additional copies of the others.

Enclosed is a copy of the corrections Taul suggests, not inclusive, for if it would be possible to make more elaborate knages, he gave me to understand he'd have had recommendations. This is to save you time in noting them where they duplicate.

Nothing ready at orchives. Spoke to Simmons today.

Best,
