10/12/66

P and G,

Mymmachine worked better than I'd expected, so I've copied all the docs for you. The originals are poor but not the worst yet. So, these are not be be copied by Paul and Gary has his set.

In two cases, they either skipped a doc I'd asked for or made me two copies. One is the Thayer Waldo, the other the Redlich 3/31.

In every case, these come from the files mentioned in my 10/9, not the other files indicated on them. Simmons did not tell me the source of the SS letter and receipt, but from the markings on it I presume that is "Box 24".

The memo on 1026 is not the only one on this I have. In WM, which both of you have, you may recall I make mention of a three-page memo of things to be done including this, in the form of a question. Or, it may be I do not mention it in the text there but have it for the appendix. In any event, that was one of the first staff papers to interest me. I recall giving Maggie a copy for her book, so it must have been very long ago.

I am not now rereading these docs, so I will not recall everything On Bledsoe, Whaley and Markham, what suspicious minds these lawyers have, considering how well they hid their suspicions in the Report! If anyone recalls, I'd be interested in knowing whether Waldo was ever asked for what he was told to bring...How solicitous for Walker, who could afford to pay for the transcript. I did Liebeler no injustice in O in N.O...There was nothing paperclipped under this Lane paper, as the xerox shows, and no other file is noted. Perhaps someday I'll check the Lane file. Anyway, this is the kind of allegation that never did us any good...I'll be writing Wade...If either of you has the story mentioned re: curtains, I'd like to have. I have a 25mm strip (Danish/ Black Star) showing curtains <u>being put up the next day</u>! Never been able to afford buying from B.S. and Matt was no help. He should be able to get them cheaper but never responded....On the bus route, there is also an SS study I never got...Is the reference to the O interrogations of record <u>exactly</u> as in Eisenberg 3/18? Do not recall if so...Id not the Tippit car window kept out of all depositions? Testimony? In these documents alone there is enough to have disqualified Markham as a witness. Some day I'll check her name file. There must be more. Problem is day at Arch now costs about $14.00 plusntime. Welcome observations, for I've not studied, merely glanced at these things. HW
