September 12, 1969

Dear Gary:

Just a note (brief, I hope). The attached is self-explanatory. We are leaving on the 14th for Berkeley drive, so I will give you a new address ~~xxx~~ on about Sept 22nd, and ~~xx~~ note of agency from Brookey should follow soon. I hope to have some word from the main FBI lab by then, and will follow up on the two slides. The Cincinatti ASAIC wouldn't say a thing specifically about the Brookey slides, but gave broad hints that all that stuff went to DC. Columbus office (oddly) is a hole in the wall -- Cincy is the big Ohio office and got their stuff, and then on to Washington. Legally, we should be okay to get the photos, but I got some interesting sounds from agents in the various offices when I said the magic words "Warren Commission investigation". Various hums and haws and good luck, that I took to mean "Fat chance of getting anything, fellow."

Good trip next month, I hope. Nichols in KC should be cooperative with facilities, even more than before, as I have sent him various things (paper, frames from "Final Hour", my copy of Final Hour on loan, etc.). Keep in mind that Betzner Sr has (apparently) the only negative of Betzner available anywhere, discounting Life.

Dr. Robert Forman will probably be writing you soon. Talked to him for a long time today. He has just come to teach at Toledo U, urban sociology. He is likely interested in a Z film, if they are still readily available. Also, he has ideas about a meeting, press conference, jointly-authored book, meeting with congressman and senators, or (mainly) something involving people of some note (advanced degress, public office, well-known private figures) who could get some public notice, pressure on the Archives or Dept of Justice for the lousy review report, etc. This sounds rather jumbled, but (as I just said), he will probably write. I said that you were writing to Senator Mondale (I think) and told him a few other things about you. You will see, I guess.

Have to pack like mad now. I'll give you an address as soon as I can.

Don
