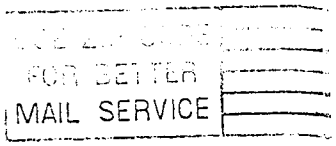
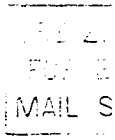
Dear Mr. Schoener

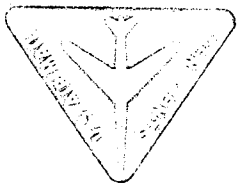
While in Minneapolis several months ago, I heard you speak on the assasination, a subject which has plagued me in recent years. I have information that I'm certain will prove invaluable to you. Moreover, no authority on the assasination has previously had access to these materials. In several days time, you will receive these materials at this same address...do with them what must be done.

Excuse the informality and secrecy of my communication. At this point, however, I feel it absolutely necessary to assure my anonymity. You are aware, no doubt, of the many people associated with the assasination who have disappeared mysteriously. I do not care to be one of these.

E.R.







Mr. Gary Schoener
