Dear Harold,

Enclosed are all the Archives had on Hunt and Rothermel. Their files aren't worth shit, since independently I located another page dealing with him which I sent you. These have already been sent to Rothermel so you don't need to waste paper and money and time.

Here also are two copies of letters from theArchives which should be of some interest. They go with the other one I sent you last week, and help better explain what they claim is in there.

They claim to have nothing on Kara-patnitski, other than CD 1330, which I still can't find in my files, although I know I had it, since I'm sure I sent you a copy.

Do you know of the color photos of the crowd outside the Texas Theater when Oswald was arrested? I have them from the Archives in 8 X 10 size. There could be some interesting faces in them. They are pictures # 2 & 3 from CD 577 and were taken by Stuart L. Reed. I am contacting him for prints from the original negatives. These should all be blown up. There had to be someone in that crowd.

Does Bernabei have anythigg on Malcolm X other than the Lomax book which is worthless compared to the Norden article in the Realist. I had a long telephone conversation with Wm. Worthy who can get $1 million ($250 thousand# for 4 years) to investigate it. He is running some checks on Bud before approaching him, I told him that Bud was of dubious allegiance and that the committee would probably not get off the ground. I recommended that he contact you, and told him that you might even send him a copy of the Miami tape. Worthy has written for Esquire, Realist, Minority of One, etc., but I don't know what to think of him. You will have to judge for yourself.

Take care.

Gary

I would much like to talk to Worthy (to whom another friend
just, strangely, spoken). I also have some King material you have not
that might interest him. If you are again in touch, extend my invitati
which includes a pad and access to everything. I do not know what else
has. Consider Lomax may have an importance through his connections, th
mate what these can be. I think he was fed Galt stuff and I know he is
Liebeler, if not a friend of his.

Gary, it might be worth trying to learn what "Billie Williams" looks like, to see if he could have been one of those in May attendance on me out there.

Bud mimeographed copies of all the medical statements Clark used 1/17 and, not knowing I had Xeroxed copies ofxthe complete file for both of you, gave me copies for you, but they are in a very big stack I brought back from N.O, and haven't had time to dig into. I just spotted one and included it in the envelope for Gary. He omitted the Marshall memo in what he gave the court(!). I think it would be a good idea if Paul wrote the DJ again and asked for the complete file, including press releases and briefs, etc. I went in writing that there was no press release, an exceptional thing (true also when Clark retreated on Shaw). In these cases they have a typed statement they read, or at least sometimes do, and if he gets a negative answer he might ask for that. Let them say "no" or that they do not have. This is by far the most serious blunder they have made and we must not overlook any possibilities.

In reading what I have written, I am approaching the end. I so hate to have to write this kind of significant material under time pressure to make it available and the emotional sweat of not knowing whether I can ever get it published. It makes for not the best writing. I do not even have time to outline, doing that in my mind as I write. But I think the most important single thing is not my vanity but getting the stuff on paper and out. Both are major problems. Matt Herron had an idea some months ago that I should ask Vince, who he said could well afford it, to get me an "editor in residence", a recent but prepared college graduate being a possibility. Vince never did respond. I would have provided quarters and what goes with it, etc. Lil is typing this from my rough draft, read once. She has completed about 18,000 words, which makes me feel my estimate of 30,000 is about 100% short of what I have actually written. Seems impossible, when I was working in N.O. when I did so much of it! I wish I know how I could xerox copies for both of you when it is done. It will then be a major task to make changes, but there may be some essential.

No word from Bud or anyone else as of after 10 a.m. (got mail at P.O. 7:45 this a.m., which I can do when I take Lil to work and can get it done before returning to other work). No comments on letterxto Vince. Except you two, Bud, Jim (through Ivon) and Sylvia, I sent no other copies.

Paul points out my interpretation of bullet wound top head more consistent with TSBD shot. Save for what happened <u>after</u> bullet hit. This requires an even more controlled explosion than the existing fiction. It narrows the area into which that force was applied too much. I also makes sense out of the BURNING of that single frontoskull X-ray. Which might have shown front damage. I am now ready to believe anything aboutxx any kind of medico-legal dirty-work.

If you both remember my elliptical handling of Vallee in COUP, I now have confirmation of my suspicion, that he was actually of SS interest <u>before</u> scheduled JFK 11/2/63 Chicago visit. Suggest you think of this terms Bolden. Confirmed by Chi police during his trial. I have duplicating clips from two different papers....My call to Johnson not until 1/22/69. Memo enclosed. I have copies Nichols suit for both. Haven't had chance read yet, or to answer his letter....Took time to get Nichols suit papers. Enclosed. Also Rose-Wilson pix for Gary, Kaffke memo to Paul (for Hal). If I find, I'll include other things I have for you before mailing.

Sincerely,

Harold Weisberg
