Dear Harold,

By now you should have the Patsy stuff plus the remainder of my stuff on Barbara Brookey. Enclosed here is my recent letter to Phil Willis and also one to Penn in regard to the last issue of the Mirror which was disgusting. Here also is a copy of a letter from Srpague to Newcomb in regard to things of interest.

The late radio ## news the other night included a story about all the people of a town near Milan, Italy being shown a copy of the Z film. Do you know anything about this.

Do you know anything about that 16yr old kid who hung himself in a Mexican jail after the RFK assassination. That was some time ago but I never got the story straight nor did I get the news clippings. I sent the page# dealing with Hunt that I sent you to Rothermel, as I will automatically do with everything of that type.

When I spoke with Vince on the phone he was dead set on pulling out of court in Washington. I played devil's advocate, but to no avail. He makes a strong argument that it could be a trap and that it is too much of a chance to take since the government just isn't that stupid.

I am totally disgusted with Penn Jones. This present article is rotten.

Tell Bud that I will have his photos back to him late this week or early next. Patsy finally got to ##copying them, although I won't get prints for many months. Explain the problems with Patsy.

Gary
