Dear Harold,

If all goes well I will be featured in a special on this Sunday night's news which is timed to preceed the beginning of the Shaw case. They spent all day with me shooting and taping. I will use some sides on TV, etc. In the background during part of the show will be the biggest ## pile of copies of N.O. outside of your ### own house. I hope that it works to sell books. They filmed me at home, work, etc.

Needless to say, I didn't want to turn down a run on the 10 PM news, but I couldn't spare the time. It looks like a few all nighters in the coming week. Remember that I will be away Monday and part of Tuesday because of my appearances in Worthington.

I have.some of Dick Sprague's letters to Fred New comb if you would like to see them. Fred is now on the alert for all of these people who are doing contraproductive things and is suspicious of Sprague.. There are quite a few and I don't know whether or not I can find a cheap way of having them copied.

Enclosed is a copy of a memo from Fred in regard to those in whom we are interested WLOL would like to be able to reahh you in N.O. during the trial for description and comment. They want to cover the trial honestly. If you are interested, send suggestions for how this could be arranged. They might even be interested in something on the basis of every other day or even daily, I don't know, but they are quite interested. This seems pretty good to me if you can do it. It would serve the double purpose of selling books which will reach still more people.

I have no time to give reasonable replies to your memos now. Thanks for them, but I am out of time. It's too bad that I am pretty much at the mercy of the schedules of TV and radio people. That's one thing I refuse to neglect.

Jay
