Dear Harold,

I hope that Lil continues to improve. Thanks for your last letter and its enclosures. I did hear from Hal, and among the carbons enclosed is my last letter to him. He seems to be reinvolved in the investigation, largely due to his having read FRAME UP.

It will be good to be able to meet Paul and see Hal again. I plan to be in SF for about 10 days or so, and hope to have about a week of that time free.

Too bad that the black press is doing nothing. Jerry sent me copies of all the letters. I plan to take a copy of the book with me to the Bar Association and push it there. Several important lawyers are ordering it.

It sounds like Hal will be of help with the book.

On Shaw, I know that there is independent evidence of the existence of Clay B. Even if he is Shaw, that proves no more than that Shaw knew LHO. I don't fault him for filing suit after what JG, Lane, et. al. did to him. If the guy is just a gay person who was a friend of LHO, that was quite a bit of punishment in terms of public invasion of his private life for several years. Even now his name has a stigma in NO. And that trial cost him a lot of \$. Jackie did not identify the Shaw friend, but would. So, no matter what the deal is with Shaw, it is a shame that he could not be a witness before being a suspect.

I am looking forward to the SF vacation. My last several vacations, as you know, were wasted attempts to get that old relationship with Marion going. They were not only time wasting, but had a heavy coast emotionally.

Please give my regards to Lil.
