Dear Hal,

Thought I'd drop you a line when Harold gave me your address. I am working full time as a clinical psychologist although I still don't have my PhD. I am building up a free street clinic and hope eventually to make it my full time thing. Right now I am employed at the private clinic on the stationary head.

I plan to be in San Francisco for at least a week, and perhaps two, during the second half of June. I will be attending the National Heroin Symposium and spending time at the Haight-Ashbury Free Clinic. I met David Smith, their founder and director, in Mpls. and we got on well and he invited me out. I hope to get ideas to help us expand and improve our underground services. I have written Paul and hope to be able to finally meet him. I also plan to be getting together with R. Gusieppe Slater, an old friend who is into the radical scene out there and who used to write for LNS. You may know him, or know of him. He recently put out a paperback entitled "The Earth Belongs to the People" and has been writing about ecology myths lately.

I hope that things are well with you. It ## has been a long time since we have been in touch. I am still working on the case, but my work is very sporadic and no where as involved as it once was. I still make occasional appearances.

If you haven't read Harold's new book FRAME UP be sure to soon. It is excellent.

I hope that this letter finds you in good health and spirits. I also hope that we can get together some time when I am in San Francisco.

Best wishes.

Guy
