June 6, 1971

Dear Jerry,

Sorry that I could not reach you. I did get the message to call, but came home after midnight that night, and then overslept the next morning so that I did not get to call until noon our time. I tried during the afternoon but did not find you home. Then I had trouble with busy signals the next night. My main problem is that I have been quite busy and so can't always call when you might be home.

I will be in San Francisco from Friday June 18th until at least the next weekend, and maybb for two weeks.

Enclosed are some items relating to the Lykken case. Lykken is now suing those who violated his rights and arrested him, and his side is claiming a conspiracy involving the police and others.

Enclosed are recent letters to Harold and Paul Hoch. I trust this letter will find you in good health and spirits. Things have been good with me except that I've been busy.

If you decide that you can work one more woman into your complicated romantic life, my friend's (Willa Weiner) sister is Margery Weiner, 523 E. 14th Street, NY OR3-6202. It would be pretty awkward, but you could mention that you are a friend of mine and I am a friend of Willa's. She's in Brooklyn Law School so it might be worth a coffee date to get some of the lowdown on Law School. But, I have no expectations.

Sounds like all kinds of people are getting together this summer. I wish that I could make it East but it looks out of the question. Hopefully in the future I will be able to better manage vacations.

Well, I'd better go now. Take it easy.

Gary

PS: In the Lykken affair, Doug Heidenreich, the Law School Dean, is one of the people I have converted through assassination talk. He has Blackmun and Burger on his board too. I'll give them another dose June 17 when I address the bar assoc.
