Dear Harold,

Thanks for your last mailing. Enclosed are carbons of letters to others.
Sorry to say that the Tribune is not really intersted in serializing much of anything. Ned and I had a long discussion and decided against going any further than we did. With the official date of publication so close an approach through Cowles, which would have had not too great a chance of success anyway, seemed pointless. I would rather spend the time,(and Ned decided this way too) trying to get the book publicized through other means. I will send you a full report of our attempt for your files sometime this coming week.

As for your letter to Dr. Dwyer, I can't suggest anything. It is out of my area of professional expertise. I have had a recent problem of my. After an allergy-free life (not even poimon ivy) I suddenly came down with a whopping big one, cause unidentified. It seems now that it is an allergy to Ecolo-G, a new phosphate-free detergent. That is the one CBS did an expose' on ;(it is a pollutant, also poor quality, also Mafia connected). In any event, I was miserable for most of last week with it. I hope that your health improves--you have had enough problems for two people.

I paid off my debt to Cornell yesterday and am finally debt-free. Now I am trying to save enough money to finally get a dependable car. I still haven't gotten going on that dissertation. It's ironic that I am so involved in professional work that it is hard to find tmme to formalize it with a degree. Another irony is that while I am considered a central figure in dealing with the drug problem in this area, I can never make it to testify before congressional committees because I am too busy actuall dealing with the problem. For example, last week I was due to testify at a hearing and cancelled at the last minute because three drug emergencyes came in and no one else would take the responsibility. Several active colleagues are also in the same boat.

Agreed on Roberts. I don't know what Ned's current attitud on him is. By the way, Ned suggested trying serialization in Stern. I agree and wonder also about Paris Match or English publications. Well, I'd better go. Enclosed is something recently sent me by the NSRP and some other items of interst. The NSRP still thinks of me as a good sight winger as does the Christian Crusade. If they take over I'll probably be made a faurer! Best to you & Lil.

Gary
