1/14/71

Dear Gary,

Mrs. Lloyd Ralston, a doctor's wife, wrote me about her sons's interest in the JFK assassination and got him the books. Her letter was such that, when I saw his Minneapolis address and she told me he was at the U of Minn., I asked her if she thought it owuld be a good idea if I put him in touch with you. For one think, I didn't know his school situation, how well he was doing, whteher he should take th e time to do some work, etc.

She has replied in the affirmative, saying "I think it would be a fine idea ...Even though Ross is quite young, having just completed his first quarter at th the University, he is intensely interested in the JFK subject. Also, he is an excellent student, having made an almost straight A avergae this quarter." And she thanked me for mentioned it to them first.

He is Ross Ralston, 315 16 Ave., SE, which sounds close to you.

When you speak to him please apologize and ask him to apologize to his mother. I forgot to make a carbon to send her. And give him my best wishes and thanks for anything he may be able to do.

Sincerely,
