Dear Gary,

What do you make of these facts:

I hear nothing from Mary for a long time, get nothing she has promised, and I've been jogging her, without reaction or response.

I try to phone her 1/3, without response.

She writes me 1/5 and says she has been busy in the office on a special thing that has kept them busy, in reorganizing her house.

She tells me (what she has to know I know from BH) that Arch has ordered everything declassified

Jimmy Lee was home and is fine.

Lil ought get hypnotized and take a plane there with me.

And makes no reference to my repeated efforts to phone her or to ask why.

I suppose we are peculiar in many ways, but I have trouble reconciling all of this.

In my reply, I didn't say I'd tried to reach her, either. Or why.

To date I have yet to get the first thing of value from her and neither of the two minor things for which I'd asked.

I have been toying with the notion Martens, whose case was dropped by JG, may have made a deal to turn state's evidence. If he does, it could also be another Russo. Just conjecture.

Hastily,
