Dear Cal,

As of now any time Sunday is OK. And if I miss a Redskins game that is no big deal. When I can I taken them in to get something else on my mind and because I do like football a little.

As I think I told you I'm up early every day and Sunday is the one early morning I do not leave early to walk and for other reasons. That day I usually get the Wash. paper from our box at about 6 and skim it and either return to work if my wife is not yet up or we have breakfast, after which I return to work. Unless she sleeps late our breakfast is over by nine, sometimes earlier. I am not hinting but some of those who come want to get an earlier start and want us to start at breakfast where they stay or near it. If they do, that is OK. Some come after they eat.

On pictures, I do not have a separate file of them and I've given all I had separate to Hood College. My work is far past where they can have any significance in it and I rarely look at the few I still have by name or subject. Much if not most of what has been written about pictures ranges from mythology to ~~an~~ exaggeration.

May I suggest that if you do not have time before then when you are coming here you make a list of the questions you want to ask? That can help you not forget and it can help us both save time.

You do not say how you are coming. If in your car you'll probably get to Frederick on I70. What I think is the first exit on it to Frederick puts you on US40 West only a few minutes from here, on its east-bound lane. In a few minutes after that you'll be at the Red Horse Inn, which most coming here prefer, or across ~~to~~ 40 from it the Holiday Inn. Of which there are two here.

If you fly to Baltimore, you'd go to the beltway, I695, take exit ~~15~~ <sup>16</sup>, which puts you on I70 West, and stay on it until inside Frederick. There when it forks take the right fork, which is where US 40W separates from it. If you are coming right here or to stay in either of the motels I mention about, stay on that road until it leaves, after you ~~cross~~ cross West Patrick St., which there is also US40W. If you are going to the Red Horse, get immediately into the extreme left lane because it is at the first corner, which is very close. If to the Holiday, stay to the extreme right because it is on the right at that same corner. If you come from Washington airport or Dulles, you wind up on US40 W (but from the Washington beltway, I 495, the number I270 disappears at Frederick) and it is like from Baltimore. From Dulles it is better not to go to the Wash. Beltway but I'm no longer certain of the roads some of which have been rebuilt. But if you rent a car they can give you a map.

Best wishes, Harold Weisberg

Harold Weisberg

Dear mr Weisberg

Thank you for writing back.

I was glad to get your letter. My mom said we probly could come down on ~~on~~ October 6th. I really cant wait, I would like to see the files you have, also have some copies of them.

I spent a lot of nights up really late looking over papers and photos and got really frustrated at times. But after 4 years of research I feel like I finally got some where. Any way, I'll see you when I get there and I'm sure we'll have lots to talk about. Thanks for your time.

Your friend  
Col Schoonover

P.S. My mom and I will leave October 6 or 7 and we will call you on Sunday to ~~ask~~ you know what time is ok.
