HARRISBURG, Pa., Oct. 15 (AP) — Senator Richard S. Schweiker predicted today that the Warren Commission report on President Kennedy's assassination was about to collapse and said his subcommittee on intelligence was looking into three conspiracy theories.

Mr. Schweiker said his subcommittee was looking into three conspiracy theories: that the assassination was the result of a Cuban plot; that it was the result of a Communist plot; and that it was the result of a plot by anti-Castro Cubans angry over diminishing support from the Kennedy Administration.

Senator Schweiker said he did not know which particular theory was the most likely, but he said he knew the assassination was a "house of cards."

'A House of Cards'

The Warren Commission report concluded that Lee Harvey Oswald acted alone in killing the President in Dallas. Oswald was killed two days after the assassination by a Dallas club owner, Jack Ruby, who later died in jail.

"I think the Warren Commission report is like a house of cards," said Senator Schweiker. "It's going to collapse." He and Senator Gary Hart, Democrat of Colorado, are co-chairman of a subcommittee looking into the effectiveness of the intelligence

agencies that worked with the Warren Commission.

He said the subcommittee "has uncovered a number of things that I feel deserve further investigation and remedial legislation."

Mr. Schweiker said the Central Intelligence Agency had threatened to withdraw its support of the Warren Commission. He said the Federal Bureau of Investigation destroyed documents relating to Oswald's death. He said the CIA had destroyed documents relating to Oswald's death.

Wants New Laws

He said he doubted that the subcommittee would meet the deadline for its report. He said that the report would be a political statement and not a factual one.

The senator said that his committee had found a crucial need for laws to control United States intelligence activities.

He said the laws should include a measure to have all intelligence money into a single account and make the total available to the public; and remove the Secretary of Defense from his position as national security adviser. He added: "The last few years we came very close to having Big Brother take over with very many of our intelligence operations. We're only now learning how close, and it was frighteningly close."
