12/18/85

We known't neved. They've remembered the routes. We are not 8 now but 12.

Thanks such. Glad to hear from you. What you report has importances I've no time to go into for different reasons. I'ms recovering from a heavy case of phiebitis, both legs. It requires more rest and other things that reduce what I can do. No pain. Prognosis good. Indications it will take time. So, I can respond to only that which can have importance to so now or in the future. In the order of your letter.

Are you saying that Hestland is responding the JFK ease? On what basis? If they do, stay off. You'll regret it. Ben't let your political beliefs interfere with reason. There is no possibility of his doing other than a whitewesh job. But please keep me informed as fully as you can. And as rapidly. His only purpose at this late date would be to frustrate the possibility of other investigations.

I'd like the oliging from the Jackson Horning Sews of 12/13 you quote as "PBI Withheld Facts in JFK Killing." Did they have a story on my Mik press conference of the 11th, which would have been their issue of the 12th? I have a locture bureou now and can use those things.

You correctly diagnose amon as a ripoff artist. It would be helpful to as and could be a useful part of your last training if you would go over this and itemize each percedited bit of oribbing, whether or not but particularly from me.

The sum to whom I introduced you and to whose restaurant we went for disser is larry Borenatein. He is the nepher of Bronstein/Troksky but as practising a capitalist as there is. I know that he had sold Ruby a painting and had discussed it with him earlier. There is sore to this nothingness them I can now \$6 into.

Seach area. I know the geography of the area well, I have nover been to the long Seach area. I know your connections and employment. There is no rational explanation of lad except that he is note on this subject and does only the insens and never checks anything out and given any shodow will jump to the wrong conclusion and even them fask it up. I did not know he had been there 5/13/75 but did know lane was sent later. They are lost in this and I'm not about to help them get out. They represent the biggest single problem to getting constring done, are agreement and agranisant and the only hope is that before it is too late they will destroy all their own credibility. I don't wind telling you I'm sitting back and writing for this. You are lucky he didn't call you (pyrobably because he knows we are friends) because you'd then have been involved in what in at best a foolishness.

I have other interests in Gandat and would appreciate knowing whatever you may brow, believe or have heard, in all the detail possible because you have no way of knowing what my interest is and I now cannot say. Of any period of his life.

Sorry I can't write more. I can spend only so much time typing, which requires that I spreadcage the typewriter with legs relacd. Thanks for everything. Have a good holiday and a good year and stick to your school, not any consistee job. Don't even seek it.

Sincerely.
