Herr. H. R. Hoffmann.
Editor.
News From Germany.
Bavaria. Germany.

Dear Mr Hoffman;-

Many thanks for the copies of "News From Germany" I read them with great care and pass them along into circulation, I only wish that you could see your way to send a bundle of them each time, as so many Americans here (not those of German decent) want to know what is really happening in Germany.

This organization is leading the fight to keep America from an alliance with Great Britain or France and joining in a war against your Country... you can state in your next issue of "News From Germany" that Americans will never fight Germany again. we were suckers in the World War for International JEW Ry. especially the House Of Rothschild, but Pray GOD never again.

I would like to visit Germany some time this year, so that I could come back here and tell the American People the truth first hand.

Roosevelt and his JEW Communistic advisers are all through and they know it. 1940 will see them kicked to HELL from public life forever. but the fight goes on, to return this Republic back to the American People (Christian) to whom it rightfully belongs.

You see Hoffman, the American people do not know the truth they are fed a lot of lies and bunk by the JEW controlled Press so when they get a chance to read a paper like "News From Germany" its a relief for them and then they come asking me to save them copies... so, send them over all you can. I will pass them out.... I will do my share.

I am before the Un-American Dies Committee August First this RAT double-crossed the American People and sold out to the enemy.

Cordially Yours.

Edward James Smythe
