

**NO! MR. PRESIDENT
YOUR NO REPRIMAND POLICY
WILL NOT SATISFY THE AMERICAN PEOPLE**

GENERAL BROWN MUST GO!

**Yes, Mr. Carter, Were You President
We Would Ask You to Fire Gen. Brown**

His open contempt and hostility toward our nation's closest allies is damaging to our foreign relations and security, and sabotages our Middle East objectives by disdaining our friendship with Israel. If we have prudently supplied Israel with arms, we have done so in our own best interests, recognizing that it is Israel's youth — not our own sons — who have paid with their lives, defending the front lines of democratic civilization in a vast sea of tyranny and oppression.

This is not the first time that General Brown has indicated lack of understanding of our democratic society and cherished American principles. His previous reckless attacks against American Jews have revealed a deep commitment to anti-Semitic prejudice which makes him incapable of rendering critical judgements or of carrying out objectively policies concerning either Israel or Jewish American citizens. Perhaps this explains why he finds fault with our arms program for Israel while remaining silent when we provide massive stocks of war weapons to unstable, unreliable Arab nations ruled by feudal kings and one-party dictatorships.

Despite previous reprimands, General Brown remains unrepentant. His retention in his present crucial office poses a dangerous risk for American security!

**DON'T ALLOW THE BROWN INCIDENT
TO SHAME AMERICA**

General George S. Brown
c/o the Joint Chiefs of Staff
The Pentagon
Arlington, Virginia 22201

Dear General Brown:

On behalf of the readers of LIBERTY BELL and THE WHITE POWER REPORT, and on behalf of White America, we would like to extend to you our deep appreciation for the courageous and outspoken stand you have recently taken against Zionist control of our government's military and foreign policies.

When a man of your reputation, occupying a public post so sensitive and so vulnerable to Zionist retaliation, nevertheless finds it within himself to place the interests of his country and his civilization above the personal considerations of his career and his future security, then it gives us all cause for hope, and an abiding sense of relief and gladness that, even in these sad and gloomy twilight days of America's greatness, this land can still produce leaders with the courage and the will to speak out against those who would undermine and ruin us.

We hope that you will remain steadfast in your firm commitment to America and to the beleaguered men of the West, and that you will never cease to speak the truth whenever and wherever the truth must be heard. You have our admiration and our solidarity, and you may rest assured that we of the White Power Movement will do all in our power to assist you through our publications and through our support in weathering the storm of Talmudic rage hurled against you by those who are the enemies, not just of America and Western man, but who, in the final analysis, are the deadly foes of all humankind.

With deepest appreciation,
The Publisher and Staff of
LIBERTY BELL PUBLICATIONS

J. E. Hearnley
