75/91

I did seak to wrill yestermay. He did not know Greg personally but did know of and did respect his work. He was shocked, of course. I told him all I know, Including about this and his wretchedly bad books. He'd not heard of either. I also told him about your concern that the nuts would proclaim another. Class assination and he could see that and also does not want it to happen.

He was frank about the difficulties of getting copies of the papers you'd like and I suppose he was thinking aloud shout it. He will try. He now has no connection in the office that has them. He said that the office itself has not been filled. He said that he and Tom Noguchi are good friends but that, and I had to interpret his words he was that careful, after which he agreed with my interpretation, that Noguchi now as not popular in that office. As we were talking, and we did talk quite a while, I got the impression that he was thinking about whether he could accomplish anything by phone or mail and decided that he could not.

It will be about two we ke before he can make the only effort he could think of and that probably will be through or will involve Boggichi. He will be out there in about two weeks for the convention of the academy of forensic sciences and that is when he will try as soon as I hear anything I'll let you know.

I also informed Jerry and he will inform the librarian.

There is a strange aspect that I'm trying to learn more about. Not long before he did it Greg space to a part-time flood student who I remember as a fine woman. I suppose he met her there. I recall her from one of my seminars there as bright and good. Her name is Rachel. I've asked Jerry to ask her to write as complete an account as he can. In short he told her that he sould not have anything more to do with welanson. See my enclosed latter to Dave Wrone. I believe Greg was about to enage his will and didn't.

On the Stone matter, my friend Dick Gallen has something to do with, perhaps represents Carroll & Graf. They published Marss, drek. I'd decided that when I have a few other things cleared up I'll write Stone. So, I nelt that because of his relationship with 0 & G I should tell him and I did. His response is that he had heard only a week ago that they are going to do a documentary but based on Garrison's fiction, without any mention of Marrs. Which, by the way, is being remaindered by Barnes & Noble. If he is 0 & G's counsel would he not have been involved in any contracts?

Remember me to Jerry when you and he speak again.

Best.
