Cerard Selby 4247 Dixie Canyon Ave., Sherman Oaks, CA 91423 Dear Chip.

I read and annotated immediately and I loved it!

If you ever get the pages before 2 plus the missing 11 and 144, I'd like to see them.

At some point I suppose contracted sources were lised. They interest me and I can identify a number not reported in the papers I've seen.

Day before yesterday I had a phone call in a very friendly tone from a woman I had trouble comprehending (my hearing impediment) whose name is Rosconi and who said she is with Oliver Stone in Dallas. According to her they had just gotten my letter written him so long ago. Her friendly tone rather surprised me because it is not the reaction I'd expect from that letter. She professed him to be a fan of my first three books, the only ones of which they knew, and she included Oswald in New Orleans as one and the one he and she like most of all.

She asked if they might phone agains yesterday or today and I told them of course.

I also told her that their fack flack, Andrea Jaffe. has ordered WW IV and Post Mortem via Vroman's bookstore, that the store had taken a couple of weeks to prepare the order form and then had delayed mailing it, although they'd marked it rush, but that I'd sent the booksd directly to Jaffe by return mail. Ho delay here.

I added to this that because it seemed unusual that the order had been for those two books only I'd thought about it and realized that in only those two books I had facsimile reporduction of Commission executive session transcripts. So, if they have an interest in the other than teanscripts I'll make xeroxes for them for the cost of the xeroxing plus the time of the student who is helping me part-time. It had occurred to me that those two transcripts lend themselves to Carrisonian uses. Later I realized that those are the two last of my JFK books and that if, say, Steve Jaffe or Carrison or another were their source of my books they did not have all of them.

An actor, Paul LeMat, told me that when Stone interviewed him he'd told Stone that he had to know about my work and when Stone requested it he gave him my phone number.

If by the time you get this you have not sent me the hearings transcripts and will be more than a few days completing the copying, I'd appreciate it if you send those you have copied because unless you have made a list of the witnesses and the volume and pages of their testimony that is something I want the student who is helping me parttime to do to save my time in reading them.

Thanks and best to you both,

Hardl
