Dear David,

The Oliver Stone JFK assassination film is being ballyhoed in Hollywood, according to the trade press as "The Oliver Stone Project for 1991."

Whatever it turns out to be, and my hunch is that it will not be factual about the assassination, it will reach a very large number of people.

I am trying to keep for the future as much as I can that relates the assassination and what is said about it.

So, I'd appreciate it very much if you would be kind enough to send me copies of what is reported about it in Dallas.

If there is any charge, please let me know.

From the flackery it appears to be mostly a film about Jim Garrison. The New Orleans papers say he has read and likes the script. And will play Earl Warren.

From what friends in New York and Los Angeles have sent me he appears to have bought the right to use a number of books that have one thing in common - theories about who did it.

This leads me to believe, if it is of interest to you, that he intends to weave some of those theories in with Garrison's.

When the film comes out I am keeping this file, if it then should be on any interest to you or to your papers.

Thanks and best wishes,

Harold
