Mr. James Garrison
District Attorney
Orelans Parish
2700 Tulane Avenue
New Orleans, La.

Dear Mr. Garrison:

Since my last letter I have been doing some considerable soul searching regarding a possible format for cooperating with your current investigation. For the reasons briefly outlined below I can presently see no such possibility.

At one time I was closely associated with the "surfaced" and secret leadership of the Right Wing in the production of documentary films. As soon as I gained control of my emotional patriotism and saw what was going on I withdrew from this association completely. As a U. S. Naval officer I had an excellent war record and have put love of Country above personal profit in the many battles in which I have been engaged. I am completely honest!

I note in yesterdays N. Y, Times that an article mentioned the C.B.S. TV program dealing with the problem with which you are concerned. It mentioned William Turner who as we both know writes for Ramparts magazine. The article implies a close relationship between yourself and Mr. Turner. It has been my unfortunate experience with Ramparts to find them totally dishonest and unscrupulous in their dealings with writers and material. All I can say at this point is that they are POLITCAL DYNAMITE and if you were a friend I would strongly suggest that you leave them alone until you chekc them out! The people behind this operation apparently do not fit into the American way of life!

Life Magazine....I talked to C.D.Jackson prior to his TV apology to the Right Wing in California when as publisher he retracted a story publicly which hit elements of extremism. Without going into detail I would say that the elements in the background of this publication might be questioned in regard to the advancement of your investigation. The best of luck in your coming activities.

Cordially,

Jules Striso
