

6/25/77

Dear Floyd,

Al told me about your call when I was in Dallas.

Louisa told me about your illness.

Your father told me about your other troubles.

I hope all the troubles pass off soon.

Thanks for the offer of help. Unless it were fairly close to full-time and here there is none I can think of.

I go to Washington only when I can't help it. For the period when I was going more often I was lucky. I found a fellow who lives not far away who works there. Real good fellow. When the weather was bad he'd come here, which was all the times I had to go last winter. Once the weather broke I'd meet him on 40 and park my car there.

I would like to get those tape recorders, though. Jim gave me his. That way when I have time I can dub tapes and I have a spare if something happens to the main one. If you could take them to Jim's it would be a big help. From time to time I see him on the FOIA cases. I expect to this Thursday.

It would be more certain to take it to his office. Is he is not there a receptionist is beginning before you can park there. It is the Christian Science Bldg., 910 16 NW Suite 600. There is no telling where he might be at any time, between home, office and the courts and law libraries.

Please don't forget the battery eliminator and if it was included, the case of cases.

I guess the House assassins committee has disappointed and disillusioned most young people. (And older ones.) Of course I'm disappointed, too, but not discouraged because you may remember I did not expect any good from them.

I guess this is why we saw so few last semester. I don't think Kim was here more than once, Lila only a couple of times.

Thanks for the offer, though. Appreciate your thinking of it.

Hope everything works out.

Best,
