

by Kennedy's action
Could Kennedy control the
military & CIA?

The Bay of Pigs matter
he did not, whether or not
he could

1) He went ahead with this
plan, clearly a violation of all
law

2) He even barbed wire
those restrictions he imposed
(air fly over)

reference, whether or not
Kennedy would use it, there
was always the chance one of
these adventures would
get out of ^{his} control
