

3/4/69

Dear Russ,

3/2

Ulets 2/28, 9 arrived this a.m. with interesting enclosures. Fensterwald is a friend. Everything that happens gives me more to do, so I'll be brief.

Hermen Fell: by now so much time has passed it is hardly worth taking time for Butler. Too much to do.

If I lend you a copy of Coup, can you return it fast, insured? You may Xerox if you find it worthwhile. If I left you name out it was to keep you from getting fired. I had a very good source on the return of the file. Hint: initials RT.

Check on Vallee and reporters. If I have any Chi material they want, and offhand I think of no other, they are welcome. If there is any they want me to get for them, I'll try.

I have no idea on Worthy. Despite your misgivings, I hope to hear from Revel. National Guardian may know W's address.

Could that name have been Leichner? He figures in the New Orleans case a little. He was a librarian where Oswald frequented. When you have all you can get on this, can you give me a separate memo on it that I can copy and circulate, please? Sounds like a nut. They'd want this just to know how their name was being used, to see what they might be involved in. Does WMAQ still have the film?

From what I gather from the newscasts, SCLC is not in accord with Revel. However, if they get really interested, I have more and have still more accessible.

You sized up the N.O. end right.

Hurriedly,
