Dear Russ,

Dates on Thicon-Klan story from 12/28/67. I will be getting Tesh Fost stories beginning next day, either AP or LA Times orig, copy. No UPI, no Chi papers yet.

Donald Heath was "ringleader" He was 30. He and Richard Stanton, 33, Jon Johansson, 26, were from the Fillmore District. Dennis Alsia was from the Austin District. William Plogger, 43, and Ernest Semet, no dope on assignment.

Thus far, besides Groth, Ive seen only these names of the 14 in the killing: Fred howard, Wm. Kelley, Lynwood marris (black).

This case will get to either criminal or civil court. If the Panthers have any sense, they'll take this to civil court, as they can, perhaps through proxies. They can accomplish much thereby, and I think they should have filed by now. Of course, there is good reason to swait the completion of the inquest testimony, otherwise the cops would take the fifth. But was soon as that is over, especially because it is now no secret that feebees are in on grand-jury actions, should they take the initiative. There are things prohibited in criminal actions that are not in civil ones, and they can either get the whole demned story out of establish the clearest perjury. Today, even in Chicago, that could mean so bething.

I've cut the hell out of the appendix to both COUPs becomes it so long now. And I'm golding the notes down, eliminating much of what i'd planned, for the same reason.

Nothing else new. When I went out to feed the pheasants this a.m., ntoicing yesterday they are now coming close to the house, I found snowbanks I medn't been near so hard I could walk on them. Some crust: Parts of the lane xx still pretty rough, but better than only passable. If we can have a little sub and no snow for a few days, it may improve further.

Being able to get WBBM, even with relatively poor reception eveny night this week, gives me a little more. They raked hark over the coals. From the threstory (UPI) in yesterday's Post, they did not exaggerate. That besterd would do anything, no matter what the hurt to others, to get his name used or try and sell his books. If the testimony ment at all like reported, he hurt the defense. They were rather well prepared for him, so wel' I found myself if St. Edgar had beckgrounded.

Best to you both,
