

10:15 a.m. 10/10/68 Deyahn has just called me to tell me that a man she believes is a government investigator ("he has State Department written all over him") is going around New Orleans with something saying House of Representatives, 90th session, February 28, 1968, telling everyone I am a Communist and asking about me. She is being "hassled". Her lawyer, Brenner, tells her "Bringuler knows every move I make". Marge phoned her last night. She also knows about this and is worried about me. From Marge she learned that she has not been getting my letters. She has not heard from me in 10 days. My last letter was dated only 7 days ago. I have since sent her a leather notebook and a note. She did not know I am going to New Orleans, and I had written her. The Washington lawyer ("he's a neat guy") is Burgess Weinman of the Department of Justice! I encouraged her, in any crisis, to get a lawyer with no government connection. She said she had asked the postoffice about not getting her mail and they said the check had to be instituted from this end.
