Dear Hal,

Enclosed are copies of a letter I have just received from one Diosdado Olam, Jr., of San Francisco and my reply. I am sending copies of both to Art and Jim, who you may want to invite in. Perhaps Harv, who could also get a good program if he could preserve the identity of this man and perhaps also stay away from the assassination aspect and what might be libellous.

Can you possible tape-record an interview with him? If you do and you transcribe it, please dub the tape immediately and send it to me before you do the transcription so I can know its content.

You may want first to satisfy yourself that he is for real, that he is not afflicted with mental problems. When he gets to the intimidation and threats, try and get the names, offices, etc., and, of course, dates to the closest possible in each case.

One of the things he doesn't mention that I'd like to know is whether there was any FBI "inuteman" investigation at the time of the assassination. I now have indications that there was such an immediate interest in the Klan.

I am anxiously looking forward to getting the B interview.

Thanks to you and your boys for the wonderful job.

Sincerely,

P.S. Anything on "Dondson".
