Dear Ms. Whitman,

Thanks for the thoughtfulness of the SASL. appreciate it.

I enclose a list of our books.

I have not been a conspiracy theorizer, unless the authors of the better-known books, for a number of reasons. One is that because the crime was never investigated officially, and never intended to be, there are no real lead for private people to follow. another is that none of which I know is proven and virtually all are untenable on the ~~basis~~^{basis} of the available and dependable official records. So, publishing theories as solutions deceives and misleads the people who are concerned, many of whom still sorrow over that great tragedy.

I know of no basis for believing that immediately after the assassination someone intended to kill Oswald. This is a tenable, one of the more reasonable theories, however. a case can be made for it. Even if I do not believe it.

I know of no reason even to suspect that Tippit was sent to kill Oswald. and his actions when he was killed leave it beyond question that he did not expect to confront anyone who was armed.

We have no way of knowing who ~~sent~~ killed Tippit or why.

I do not believe that Tippit himself was part of any conspiracy. again, not having his own weapon out indicates he had no apprehensions.

Thanks and best wishes,

Dear Mr. Weisburg;

I am writing to you with the hope, that I will be able to purchase several books by you. I found your address in the bibliography of Robert Grodin's book "High Treason".

I read your book "Whitewash" in 1971. My cousin had an old copy. This book was wonderful, and needless to say, I have been reading books on the subject ever since. The "Whitewash" I read, had a blue cover with white writing. I believe it was VOL.I, the report on the Warren Report. This copy was loaned to a friend and never returned. I think your book was a valuable tool for reference. Also, your book deals with the Tippet murder, which I have many questions about. In any case, I would like to purchase copies of "Whitewash" VOL.I-II, The Case for Conspiracy and the C.I.A., along with "Post Mortem", 1975.

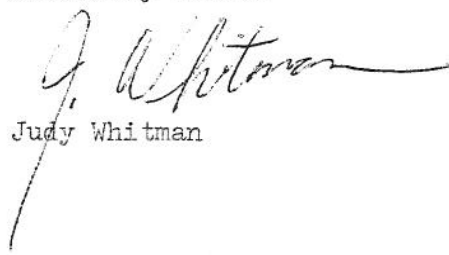

I have enclosed a self-addressed stamped envelope. Please let me know how much they cost, including shipping and handling. I'll return a money order for my purchases.

I also have a question on which you may care to speculate, if you have the time. This question is based on the theory, that someone probably tried to kill Oswald immediately after he left the TSBD.

If Oswald did not have his gun on him, at the time of the assassination, he returns home to get it because he feels he needs protection. At this time Tippet is killed. Now if Oswald did not kill Tippet, and in fact if Tippet himself was sent in to kill Oswald, then who killed Tippet and why? Also, if Tippet was involved with the conspirators, what suddenly made him so expendable?

Thank you for taking the time to read this letter. Please forward any information on the books to me. I look forward to hearing from you.

Sincerely Yours.

Judy Whitman
