Dear Harold:

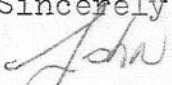

Just to drop you a quick line concerning the documents related to your efforts to obtain special photographs and autopsy material of JFK. I have been informed that there are approx. 550 pages related to your request. I will be sending the Archives the money here soon for copies. Inlight of the material release by the HSCA, I believe that we have a chance to obtain the special prints. If you are up to it, let me know what you think and what kind of photographs you would like made in case we win.

I informed the HSCA on the location of the brain of JFK over two years ago and they still could not find it. Unreal! I am still working on this area.

Also I am trying to obtain a copy of the photograph which shows the sixth floor of the TSBD from end to end with two gunman in the alleged assassin lair.

Not much more that is new, I hope you are feeling better. There is no need to answer this letter.

Sincerely yours,
