

2/18/67

Dear Jack,

Here are the two documents I mentioned last night. The one on the piece of skull you may use whenever you want or you can keep it for Friday. I used it in a speech to a PTA group in Frederick ~~Friday~~ ^{Friday} night. It didn't get in the paper because they had a fire that night! Hence it didn't get out to the wire services. The one on the fragment of bullet in the Governor's leg is for release this coming Friday.

God! How I wish I'd been able to finish WHITEWASH III, from which these come - and they are not among the more important things in it.

I've given the Frederick paper the original of the mysterious paper found on Oswald by Lt. Marbello. They may feed it to AP this afternoon for tomorrow's papers. I also have the copy the lieutenant made for himself. I think with what is now coming out of NO these are fascinating. Reference: WHITEWASH II, p.63.

If you had a TV show we could make the most sensational TV special yet!

Regards,
