Attention: Miss Martha Stroud

Gentlemen:

Pursuant to telephone conversation this morning, I herewith make request under the Commission's regulations for a copy of my deposition which was taken a week ago here in Dallas. The stenotype machine was not operating effectively on the day of my deposition and accordingly numerous corrections were required to the typed deposition. In view of this circumstance I, therefore, prefer to sign my deposition at the time I receive a corrected copy of same, which I presume will be at commercial Xerox reproduction rates.

I trust you will understand the reasons for this request and that same will not unduly inconvenience the Commission.

Very truly yours,

Samuel B. Ballen
