11/24/65 Got ribbon copy wack from Stern p.m. On giving it to Tynwood Giacomini found Stern's marker, indicating he had read but first three (shortest) chapters. He expressed a desire to read it, although in exactly two months during which he --had it he appears to have re ad but little. It was offered to the post in June and they took no initiative in seeing it. I told Stern when I had a copy to spere I'd let him have it.
