

Dear George,

4/4/60

The enclosed came today. You should recall my referring Wrono to you to be sure he had a complete file of the Post's coverage of the assassins committee. That appears to be a major part of part 3 of the biblio. Because it is by a publisher who enjoys high prestige in the field of bibliographies, I hope you and others at the Post will be happy, as the record justifies.

Guth is a scholar who suffers from being over-qualified. His credentials are that good. While I have not met him a friend who retired after a lifetime with AP did spend some time with him and spoke of him and Wrono in the most glowing terms.

Wrono is in charge of and really responsible for my archive at the Stevens Joint branch of the Univ. Wisc. The request was from the State historical ~~association~~ association but after I met Wrono I selected that branch. He has become a good friend.

I don't know but I guess the book is in manufacture.

Best wishes,
