Dear George,

Thanks for the loan of the HSCA's autopsy press stuff. I'd hoped it included glossys for better slides.

I also enclose my recent exchanges with Blakey. Perhaps it will smuse you.

The assassins have re-subpoenzed ohn May for 11/30. I think service was by "el Waxman. The account I have is one of his attracting maximum attention where John now works, sort of pressure on the employer.

There is an immunizing hearing before front, on the 8th.

After John denied participating in any bank rebberies the HSCA sent him a proposed "biography" in which they ask him to admit to a series of bank rebberies, including that of the Bank of Alton, one at "awthorne, Fla. and one they've also asked "erry to bio. Himself into.

John's imputed arear of successful bank robberies, MSCA style, had him in one less than a onth before his arrest on the St. Peters robbery. His supposed part in the so enriched him that he was unable to pay a lawyer. This is now Stoner got in his case.

We also has from the HSCA its investigation of John's bank accounts. They show his balan was so small that carrying charges consumed it while he was in jail.

If it ferests you I have Oliver Patterson's executive session testimony.

I've given'm a copy. I'm getting the 180 pp. transcript of the HSCA's selfinvestiga'm of the Patterson charges. as with this transcript of the ex. sess.,

of which has a copy, I'll be giving him a copy of the self-investigation.

If you it copies I'll provide them but if you have only slight interest, if any,

it wow be easier here if you examine 'im's copies.

Thanks and best wishes,
